Professional Summary

BSc Information Technology graduate from North-West University with hands-on experience in software development, system troubleshooting, networking, and full-stack web applications. Proven problem-solver with hackathon wins and practical project experience in C#, ASP.NET, JavaScript, SQL, and networking. Seeking an IT internship to contribute to real-world systems while strengthening technical and collaborative skills.

Education

Bachelor Of Science in Information Technology

North-West University | Jan 2022 – Nov 2025

National Senior Certificate (NSC)

Lingitjhuu Secondary School | 2020

IT & Technical Skills

- Languages: C#, Python, JavaScript, SQL
- Frameworks & Tools: ASP.NET, React, Node.js
- Databases: SQL Server, Supabase
- Networking & Systems: Cisco Packet Tracer, OS fundamentals
- Cloud & Tools: Azure (Foundational), Git, Visual Studio, Cisco Packet Tracer
- Core Knowledge Areas: Object-Oriented Programming, Data Structures & Algorithms, Operating Systems, Computer Networks, Information Security, System Analysis & Design

Projects

- **Clinical Decision Support System (C# / ASP.NET, 2024)** – Designed and developed a clinical management system with secure user authentication, form validation, and SQL database integration.
 - Implemented backend logic and database connectivity
 - Built structured forms with validation to improve data accuracy
 - Applied object-oriented principles for modular system design

- **NWU Marketplace Web Application (2025)** – Collaborated in a team-based project to build and test a marketplace platform.
 - Assisted in implementing core functionality and debugging
 - Conducted testing and troubleshooting to improve system reliability
 - Contributed to frontend and backend integration
- **Student ATM Simulation (C++, 2023)** – Developed a console-based ATM simulation.
 - Implemented transaction logic and error handling
 - Applied structured programming principles
 - Designed user interaction flow for simulated banking operations.
- **E-commerce Website – Petrioccele Fragrances (HTML, CSS, JavaScript, Supabase, 2025)** – Developed a functional online store with backend integration.
 - Built user flows including product listing and form handling
 - Integrated Supabase for backend data storage
 - Implemented responsive UI using modern web technologies
- **Networking Project – Cisco Packet Tracer (2025)** – Configured and tested network topologies.
 - Implemented routing and switching configurations
 - Simulated network performance and troubleshooting
 - Applied networking fundamentals in practical scenarios.

Certificates & Achievements

- GenAI Course for Professionals - WeThinkCode
- Introduction to Cybersecurity – Cisco Networking Academy
- FNB App Academy 2025 – Full Stack Development
- Geekulcha Internal Hackathon – 1st Place (2024), 2nd Place (2025)
 - Designed and delivered working software prototypes under 24–48-hour time constraints
- Captain – NWU Boys Volleyball (Leadership & team coordination)
